REVIEWS

Nick was the DJ at my wedding, and did a fantastic job! He was given a general vibe for the music, with a few specific requests, and delivered it perfectly.

Additionally, Nick was just the right level of performer/personality for our wedding DJ. He knew when to use the microphone to encourage people to the dance floor, but was also happy to fade back when things were moving along well. I'd recommend him to anybody.

Nick DJ'd for us at our wedding and not only did he successfully fill the dance floor within the first song (nobody in my family dances, I was amazed), but he worked closely with my now-husband to ensure we had the perfect soundtrack to our evening, from start to finish.

★★★★★

We asked Nick to do the music at our wedding. He did such an amazing job, the music was beautiful, and he helped to create an enjoyable atmosphere. A few years later, we still get compliments on his performance. He played at our ceremony and at our reception. He is so kind, professional, communicated with us, and he was definitely a key component to our wedding being so beautiful. I would definitely not hesitate to have him play at any event.
